via the software update function.

DESIGNED TO PERFORM

wmf.com

WHERE YOU FIND THE NEW SOFTWARE

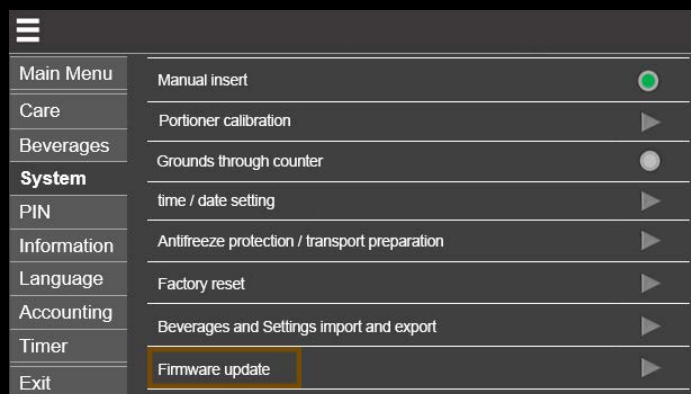

The new software for the WMF 950 S will be available on the Website WMF professional coffee machines:

<https://www.wmf-coffeemachines.com>

Go to Products > 950 S

- Download the zip. Data (ZIP file contains the update instructions and the new software version)
- Extract the ZIP and save the HMI file on a USB stick. (If available also save the CTR data).

Important: the USB stick must have the format FAT32

ENTER THE PROFESSIONAL
WORLD OF COFFEE
COMPACT, RELIABLE, TASTEFUL

Comes with **21** preset beverages
Designed for up to **50** cups per day

HOW TO INSTALL THE NEW SOFTWARE

- Open the USB lid on the right side of the operating panel
- Place the USB stick
- Open the 'System' menu
- Select 'Firmware Update'
- Select the HMI data (if available: select afterwards the CTR data)
- New Software will be installed
Important: Do not switch off the coffee machine or pull out the USB stick during the software update!
- The machine performs a restart. The update has been performed successfully and the USB stick can be removed.
