EG - DECLARATION OF CONFORMITY

The product described in this instruction manual complies with all relevant harmonized requirements of the EU. The complete declaration of conformity and instruction manual can be found online at www.jaxmotech.de/downloads.

About these instructions

This product is designed exclusively for the short-term collection and storage of household waste. It is intended for private use only and is not suitable for commercial use.

Keep these instructions for future reference, as they contain important information. If you pass this product on to someone else, please also include these instructions. Symbols used in this manual:

This symbol warns you of the danger of injury.

Symbols used in these instructions

DANGER warns of potential severe injury and danger to life.

CAUTION warns of minor injury or damage.

NOTICE warns about the potential risk of material damage.

This indicates additional information.

Safety warnings

WARNING

- Remove all packaging material before giving the product to a child. Risk of choking.
- Improper handling of batteries may cause a risk of explosion.
- Store batteries in a cool, dry place.
- Do not expose batteries to excessive heat (e.g. direct sunlight) and do not dispose of them in fire.
- Insert batteries correctly, observing the correct polarity (+ and -).
- Do not use old and new batteries together. Always replace all batteries at the same time.
- Do not disassemble or short-circuit batteries.
- Do not recharge non-rechargeable batteries.
- Remove batteries from the battery compartment as soon as they are depleted or if the product will not be used for a long period of time.
- Remove used batteries from the product and dispose of them safely.
- Under misuse, liquid may leak from the batteries; avoid contact. Battery liquid may cause irritation or burns.
- If battery liquid comes into contact with skin, eyes or mucous membranes, immediately wash and rinse the affected area with clean water. Consult a doctor if necessary.

NOTICE - Risk of damage

- Improper handling may result in damage to the product.
- Do not drop the product or expose it to strong impacts.
- Do not immerse the product in water or other liquids.
- Use the product only in accordance with this instruction manual.
- Protect the product from extreme temperatures, direct sunlight and high humidity.
- Do not continue to use the product if visible damage is detected.
- Use the product indoors only.
- Place the product on an easily accessible, level, dry, and stable surface. Do not place the product at the edge or on the edge of a surface or stairs.

Use

DANGER to children

- **Keep the packaging materials out of the reach of children. They pose several risks, including the risk of suffocation!**

Prior to first use

- Remove all packaging materials.
- Clean all parts as described under "Cleaning and storage".

Inserting/Replacing Batteries

NOTE - Do not use rechargeable batteries, as they do not provide the required voltage.

- Insert the batteries according to the polarity (+/-) shown inside the battery compartment. The device will then be ready for use, and the lid will close automatically.

Operation

Opening/Closing the Lid

The product can be opened and closed automatically via the sensor. Move your hand within the sensor's detection range (approx. 15 cm max.). The lid will open automatically and close again after approximately 5 seconds.

Cleaning and storage

NOTE - Risk of damage

- Clean the housing regularly with a slightly damp cloth.
- Do not use harsh cleaning agents, abrasives, or solvents.
- Do not immerse the product in water.
- Allow the product to dry completely before storing it.

Technical Specifications

Model	: TB 102
Product Number	: 765 901
Batteries	: 2 x LR03 (AAA) / 1.5V
Capacity	: 1.5l Usable capacity: 1.0l
Ambient Temperature	: +10 to +40 °C

Information about the supplied batteries:

Manufacturer	: Naccon Power Technology Co.,Ltd, 6F Block A, Dongshangang Industrial Park, Xixiang St., Baoan District, Shenzhen, P.R.China
Model	: LR6/AA
Website	: http://www.naccon.com
E-mail	: aguoguo@naccon.com
Manufacturing date	: 03/2026
Made in	: China

In the course of product improvement, we reserve the right to make technical and optical modifications to the product.

Disposal

The product, its packaging and the supplied batteries have been manufactured from valuable materials that can be recycled. Recycling reduces the amount of refuse and preserves the environment. Dispose of the **packaging** at a recycling point that sorts materials by type. Make use of the local facilities provided for collecting paper, cardboard and lightweight packaging.

Appliances, single-use batteries and rechargeable batteries marked with this symbol must not be disposed of along with household waste! You are legally obliged to dispose of old appliances separately from household waste.

Electronic appliances contain hazardous substances and, if stored or disposed of improperly, may cause harm to health and the environment. Information about collection points where old appliances can be disposed of free of charge is available from your local authorities. Flat single-use and rechargeable batteries must be handed in at a local authority collection point or returned to a battery retailer. Tape off the contacts of lithium single-use/rechargeable batteries prior to disposal.
