

# Radiation-shielding mobile phone holder

---

## **Dear Customer**

Your new mobile phone holder is designed to protect you to a great extent against radiation from your smartphone.

Please note the following information:

- As one side of the mobile phone holder is open, the product cannot provide complete radiation protection.
- To avert residual radiation from the opening, turn the open side away from the bed (or couch).
- Even when it is in the radiation-shielding mobile phone holder, your smartphone can still receive messages.

We wish you a good night's sleep!

**Your Tchibo Team**
