

Ergonomic wrist support

Dear Customer

Your new wrist support will help you in your daily work with the keyboard and computer mouse by providing your wrist with an ergonomic supporting surface.

Simply attach it to your wrist with the hook-and-loop fastener. Make sure you position it the right way round: the thicker side of the wedge should point towards your hand.

Important information for safety and use

Read the safety warnings carefully and only use the product as described in these instructions to avoid accidental injury or damage.

Intended use

This product has been designed for use during desk work to support an ergonomic wrist position. The product is intended for private use. It is not suitable for medical or therapeutic purposes.

 This wrist support is **not** suitable for stabilising the wrist during manual work, sporting or similar physical activities.

Cleaning the wrist support

- ▷ We recommend gentle hand washing in warm water with a mild detergent or shampoo.
- ▷ Allow the wrist support to dry flat. Do not expose it to direct sunlight and do not dry it on heaters or radiators!
